

Card Manager

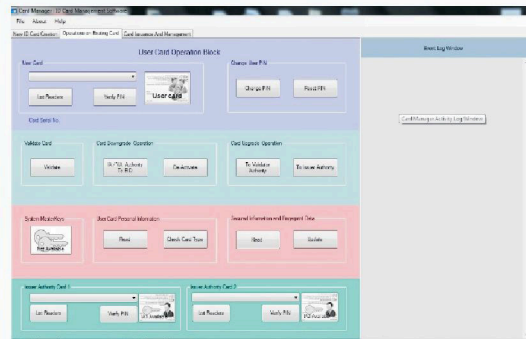

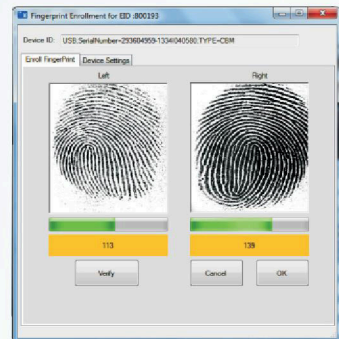

Card manager is a simple yet powerful ID Card Management software based on SCOSTA OS standards, to design professional ID cards and to control the total life cycle of the cards you issue, upgrade, down-grade, deactivate and much more. Catering to all the needs through the life-cycle of ID cards, starting from a blank card, the software provides a comprehensible and flexible platform for managing and encoding data, controlling security and privileges and customized card printing, besides integrating photo, fingerprint and signature devices.

New ID card Enrollment including picture, fingerprint and signature

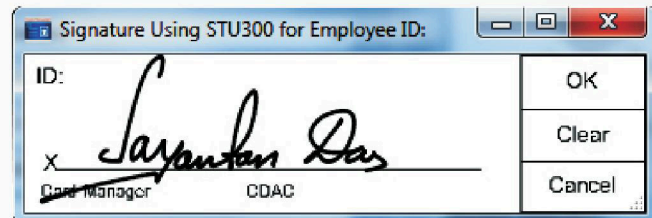

Card issuance and management

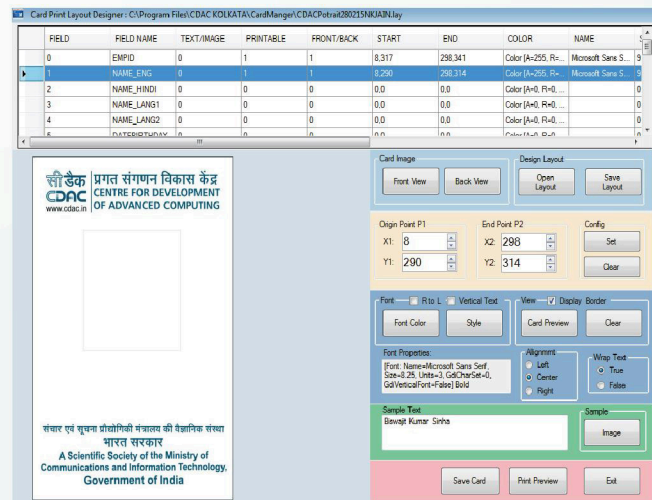

Fingerprint Enrollment

Operations on existing cards

Signature Enrollment

Card Print Layout Designer

Salient Features of Card Manager:
